

FM Facts Interactive Signs

simple touch-screen
facility to display and
control integrated
FM Facts Resource
Bookings in real time

The integrated FM Facts Interactive Rooms system utilises the latest in 'touch screen' technology to provide a display interface to integrated FM Facts Resource/Room Booking.

strategic **benefits**

- ▶▶ Links directly with FM Facts Resource/Room Booking module for monitoring and management purposes.
- ▶▶ Provides the ability to make 'on the fly' bookings which will increase room utilisation.
- ▶▶ Information is fed through into the reporting module for budgeting and planning and general management information.
- ▶▶ Proven reduction in 'No Shows'.

tactical **benefits**

- ▶▶ A seamless process requiring no additional effort from the customer or operator.
- ▶▶ Minimum investment required as there is no training required.
- ▶▶ Real time information is displayed directly outside of the room allowing other staff members to see immediately if the room is booked.
- ▶▶ Visible solution across the business and will help to raise the profile of the Facilities Department.

operational **benefits**

- ▶▶ The display unit will quickly identify occupied and available rooms by a red or green light.
- ▶▶ Displays the room's schedule for the day.
- ▶▶ Will help to guide requesters and meeting delegates to the correct room.

integration with other modules

Causeway provides a modular suite of automated management tools, providing comprehensive business solutions for all sizes of business. Our solutions can be expanded to meet business requirements, with full integration between modules, and are supported by a range of services delivered by a highly experienced and dedicated team.

system **administration** and **reporting**

Report creation and administration modules are provided for in-depth reporting and customising information to meet clients' needs and processes.

Interactive Signs via **SaaS**

SaaS is a method of outsourcing facilities management applications via a PC, web browser and an internet connection. The SaaS service will reduce implementation and running costs and eliminate IT issues associated with installing the software in-house.
