CAUSEWAY ✦

Digitising Source-To-Pay In The Construction Industry

The Causeway Tradex Platform is the largest Source-to-Pay trading hub in the UK, designed specifically for the construction industry. Causeway helps businesses in the construction, highways and FM sectors digitise their Source-to-Pay process by automating transactional document exchange from supplier accreditation to approval, delivery, invoicing and payment. Over 140,000 businesses have already chosen the Causeway Tradex Platform as part of their digital transformation roadmap.

The Causeway Tradex Platform connects an organisation with their customers and supply chain, digitising processes to transform operational efficiency and financial control.
